Familiar: React Native, SCSS, Redux

Languages: English, Spanish, Russian

Experience

Freelancer / Frontend Developer

Sep 2017 - PRESENT, Worldwide

- Develop web applications using React/JS

Education

Minsk State Linguistic University / Computational linguistics and Spanish

Sep 2011 - Jun 2017, Minsk, Belarus

My thesis was about automatic recognition of "flame" in social media feeds. To accompany the thesis, I implemented a program that takes a stream of tweets from Twitter as input, and analyzes their sentiment.

Projects

Publications

Projects:

- *crclm* A task management app. [Live](#) | [GitHub](#)
- *personal website for Andrei Juradowich* [Live](#)
- *aprendES* A web application for learning Spanish. It's work-in-progress, and it's meant to combine my development skills with the teaching approaches that I found to work well. [Live](#) | [GitHub](#)
- *macOS-like Desktop on the web* A replica of the desktop experience in macOS. [Live](#) | [GitHub](#)
- *apptv* An experiment to clone the User Interface and Experience of Apple TV, and bring it to the web. [Live](#) | [GitHub](#)

Publication:

- *How to understand Django models the simple way* [FreeCodeCamp](#)
